

### **PHYSIQ Body Sculpting**

PHYSIQ is a multi-modality device that burns fat, builds muscle, and tightens the skin.

It uses laser energy to target fat and electro-magnetic stimulation to build muscles. It has multiple treatment options and can be customized to each patient. It is a painless treatment in under 45 minutes. It requires a series of 5 treatments once a week or biweekly. Physiq has absolutely no downtime, we consider this our lunchtime treatment! Our PHYSIQ specialist will customize a treatment plan for you during your consultation and address any additional questions you may have.

#### **Customizable Treatment Plan**

<b>Body Area</b>	<b>Per Session</b>	<b>5 Session Package</b>	<b>Savings</b>
<b>One Cycle</b>	\$650	\$2,750	\$500 / 15% off
<b>Two Cycles</b>	\$1,100	\$3,850	\$1,750 / 30% off
<b>Three Cycles</b>	\$1,425	\$4,985	\$3,562 / 30% off
<b>Four Cycles</b>	\$1,600	\$5,200	\$4,000 / 35% off

Once cycle varies between 25-36 minutes and includes customized placement of four paddles.

A second cycle would be an additional 25-36 minutes and include repositioning the four paddles. Cycles must be performed at the same appointment to receive the discounted package pricing.

#### **Maintenance Program - *After First Series of 5***

\$250 per cycle on any body area previously treated from package for one year from the date of package purchase. Maintenance pricing will then go up to \$350 per cycle after the first year.
